

MC-10

IMMERSA MOTOR CONTROL

Features:

- Compatible with Most 3 Phase Brushless DC Motors
- Supports Motor Speed, Direction, and Braking
- 1 x 75V Motor Input
- 1 x 75V Power Supply Output
- Operating Temperature: 0-80°C (32-176°F)

Benefits:

- Durable and reliable
- Simple, inexpensive installation
- Small footprint requires minimal space
- UL Listed
- Fully-encapsulated for maximum environmental protection
- Low power consumption
- Easily upgradeable and scaleable to meet specific needs

Wide Range of Applications:

- Ideal for commercial foodservice equipment such as conveyor ovens, holding cabinets, fryers, refrigeration equipment, dishwashers, combi ovens, industrial machines, and more.

Dimensions:

- 2.125" W x 3.725" H x 1.730" D

Warranty:

- Every Renau product is thoroughly tested at numerous stages of production and comes with an extended three (3) year warranty.

We do more than design. We invent.
