

COOK LINE TIMER

SMART KITCHEN SYSTEM / SKS

Renau's Smart Kitchen System helps operators drive cooking consistency and product quality with help from the Smart Kitchen Timer. With a durable, 6.8" touchscreen display, the Smart Kitchen Timer breaks language barriers with a visual representation of all products. So much more than just a timer, the Smart Kitchen Timer elevates staff performance and confidence with valuable tools such as duty cycles, and digital build cards. Operators can even add temperature monitoring capabilities to help ensure equipment is functioning properly, and product starting temperature is correct.

Proper cook time and equipment temperature helps increase food quality, consistency, and safety. Call or email Renau today to learn more about how we can help your commercial kitchen achieve and maintain peak performance.
